Our camps offer language learning in action. Our methodology is based on practical tasks, projects and experiences, building on previous knowledge and developing new skills (receptive, productive, interactive and mediation) as set down in the Common European Framework of Reference for Languages (CEFR).

Using our own material and planning, we adapt to each student's way of learning, consolidating the knowledge they already possess and enhancing those which are less developed.

Our experience shows us that in order for the experience to be successful, the classes must be taught by teachers who are motivated, with years of experience behind them and a considerable measure of charisma.
