THIS WINTER, LIVE GRAN CANARIA

LCAMPUS.CO

Winter in **Gran Canaria**

While winter settles over much of Europe, Las Palmas de Gran Canaria lives outdoors. With mild winter days around **22 °C**, 10 kilometres of Atlantic coastline and the energy of a cosmopolitan city open all year round, winter here feels less like a season — and more like a lifestyle.

Our Christmas Break programmes bring language learning together with culture, landscape and island life over the Christmas and New Year holidays. They are designed primarily for closed groups, with two clearly separate products: a **Junior Mini Stay** for students aged 12 to 18 and an **Adult Group Programme** for adult participants.

Both are based in Las Palmas de Gran Canaria, steps from Las Canteras Beach, and both combine lessons with excursions, cultural visits and shared moments with the rest of the group.

This winter, discover Gran Canaria beyond the classroom.

About **Language Campus**

Our story began in **2006**, sending students abroad as a study-travel agency — work we continue today. In 2008 we founded Language Campus to welcome students to the Canary Islands, and we now host learners from different countries and backgrounds all year round.

Our teaching approach combines clear learning goals with practical communication. Courses follow the Common European Framework of Reference for Languages (CEFR), with participants placed at an appropriate level and their progress monitored throughout the programme.

The coastal setting of our centres allows participants to combine lessons with the city's everyday life, the Atlantic and the experiences that make the island distinctive.

Classes are led by **qualified and experienced teachers** in modern, comfortable learning spaces. Activities encourage participation and help participants build the confidence to use the language naturally.

During the Christmas Break programmes, learning continues through excursions, shared activities and conversations with new friends, while the island's mild winter keeps everything outdoors.

Where **We Are**

Our Christmas Break programmes are based in **Las Palmas de Gran Canaria,** on the northeast coast of Gran Canaria in Spain's Canary Islands.

From this lively coastal city, participants combine language lessons with winter days outdoors and excursions across the island's varied landscapes. **Schools, hotels and the beach are all within walking distance of each other.**

Two schools, two hotels and Las Canteras, within ten minutes on foot.

Learning by Doing

At Language Campus, students learn by **using the language**. Lessons combine practical communication, collaborative tasks and real-life situations, helping young learners take an active part and grow in confidence.

Programmes follow the CEFR and develop listening, speaking, reading and writing, together with interaction and mediation.

Lessons are adapted to students' levels and learning needs, building on what they already know while introducing new skills in a supportive environment.

Our teachers know how to motivate young learners, and the programme gives them plenty of reasons to keep talking once the lesson is over.

20 lessons a week in English or Spanish — 15 hours, in groups of up to 20 students.

FULL-DAY EXCURSION

Maspalomas Dunes

A whole day in the south of the island, where **golden dunes stretch towards the Atlantic**. Their changing shapes and desert-like scenery are the opposite of everything the group has seen in the city.

Walking among the dunes under the winter sun, with the ocean ahead, is the photograph everybody takes home.

The excursion fills the day: transport, monitors and a packed lunch are included, with free time by the sea before heading back to Las Palmas.

A unique landscape where the desert meets the sea.

FULL-DAY EXCURSION

Anfi del Mar & Puerto Rico

With its **white sand, turquoise water and palm-lined surroundings**, Anfi del Mar is one of the most inviting places on the south coast. Its calm, sheltered water makes it an easy beach for everyone in the group.

The day continues in Puerto Rico, with a golden-sand beach and a lively seaside setting.

One full day, two coastal settings — and the sunniest hours of the whole programme.

Sun, sea and island life in the south of Gran Canaria.

HALF-DAY ACTIVITY

Old Town Tour — Vegueta & Triana

Explore the **historic heart of Las Palmas de Gran Canaria** through Vegueta and Triana, two neighbourhoods that reveal different sides of the city.

In Vegueta, cobbled streets, traditional squares and historic buildings tell the story of a city founded in **1478**.

A short walk away, Triana brings elegant architecture, pedestrian streets, shops and cafés into the experience.

A walk through the past and present of Las Palmas.

Vegueta · a guided walk through the old quarter, founded in 1478.

Triana · pedestrian streets and early twentieth-century architecture.

Casa de Colón, in the heart of Vegueta.

HALF-DAY ACTIVITY

Surf Experience **at Las Canteras**

Las Canteras is one of the most distinctive places in Las Palmas and a natural setting for discovering the island's surfing culture: three kilometres of protected bay at the end of the street.

A **professionally guided session** adapted to each student's level, whether it is their first time on a board or not. Boards and wetsuits are provided, and in December the water is still around 21 °C.

Students practise new skills, build confidence in the water and share the excitement of learning with their group — one of the afternoons they talk about for the rest of the week.

Catch a wave and see the island from the water.

HALF-DAY ACTIVITY

Kayaking & Paddleboarding

On another afternoon the group swaps the sand for the water: **kayaking and paddleboarding** in the calm, protected bay, with instructors and all the equipment provided.

No experience is needed. Balancing on a board or paddling as a pair turns out to be one of the easiest ways to end up speaking a new language without noticing.

Paddle out, find your balance and see the city from the water.

HALF-DAY ACTIVITY

Elder Science Museum

At the Elder Museum of Science and Technology, **curiosity is part of the visit**. Hands-on exhibits invite students to explore scientific ideas through interaction.

Interactive displays, a real aircraft and the planetarium offer different ways to investigate the world around us.

The museum sits in the middle of the city, a short walk from the school, so the visit also becomes an afternoon in Las Palmas.

Touch, explore and discover science in action.

Evenings & Celebrations

The day does not end after dinner. Every evening the group does something together — a game, a walk along the seafront, a night out for pizza — always with the camp's monitors, and always in **English or Spanish**.

Festive Gala Dinner, included where applicable.

Christmas and/or New Year Gala Dinner
