REAL LEARNING. LASTING IMPACT.

LCAMPUS.CO

About Language Campus

Our story began in 2006 as a study-travel agency — work we continue today through Travel Campus — followed by the founding of Language Campus in 2008.

Since then we have grown into an international education and mobility partner, welcoming students, teachers, professionals and educational institutions to the Canary Islands for language learning, professional development and European mobility programmes.

WHO WE ARE

An education centre specialising in language training, professional development and international mobility.

We work with schools, VET providers, universities, adult education organisations, companies and mobility partners, designing programmes for both individuals and groups.

Our international activity brings together education, languages and mobility, with Spanish and English as our main working languages and additional options for selected programmes and private groups.

HOW WE WORK

Every programme starts with clear learning objectives and is designed around active participation, practical application and real-world experience.

Our team coordinates the complete journey — academic programme, local partners, accommodation, logistics, activities and participant support — providing one point of contact from the first enquiry to the final certificate.

Where a language-learning component is included, programmes are aligned with the CEFR.

QUALITY & LANGUAGE CREDENTIALS

SPANISH

Instituto Cervantes-accredited and authorised examination centre for DELE, SIELE and CCSE; member of FEDELE.

ENGLISH

Authorised Oxford Test of English examination centre and Cambridge English preparation centre.

Our programmes are developed and coordinated by Language Campus and delivered by experienced, carefully selected trainers, educators and programme professionals.

OUR PROPOSAL

Our Erasmus+ Programmes

Mobility is more than travelling abroad: it is learning in a new environment and bringing fresh perspectives back home.

SCHOOLS | TEACHERS | VET ORGANISATIONS | HIGHER EDUCATION | ADULT EDUCATION

WHY THE CANARY ISLANDS

YEAR-ROUND LEARNING ENVIRONMENT
A mild climate and diverse natural settings make outdoor and experiential learning possible throughout the year.

CITY, COAST & NATURE
Urban life, culture, ocean and natural environments come together in one destination, creating different settings for learning within the same mobility.

REAL PROFESSIONAL CONTEXTS
Tourism, hospitality, sustainability, services and the Atlantic economy provide authentic environments for professional learning and exchange.

ONE LOCAL COORDINATION TEAM
Academic programmes, local partners, logistics and participant support are coordinated locally by the Language Campus team.

Your Erasmus+ Partner in the Canary Islands

From the first conversation to the completion of the mobility, we support your organisation at every stage.

01
Audit
Objectives, content, duration and learning outcomes aligned with your Erasmus+ project.

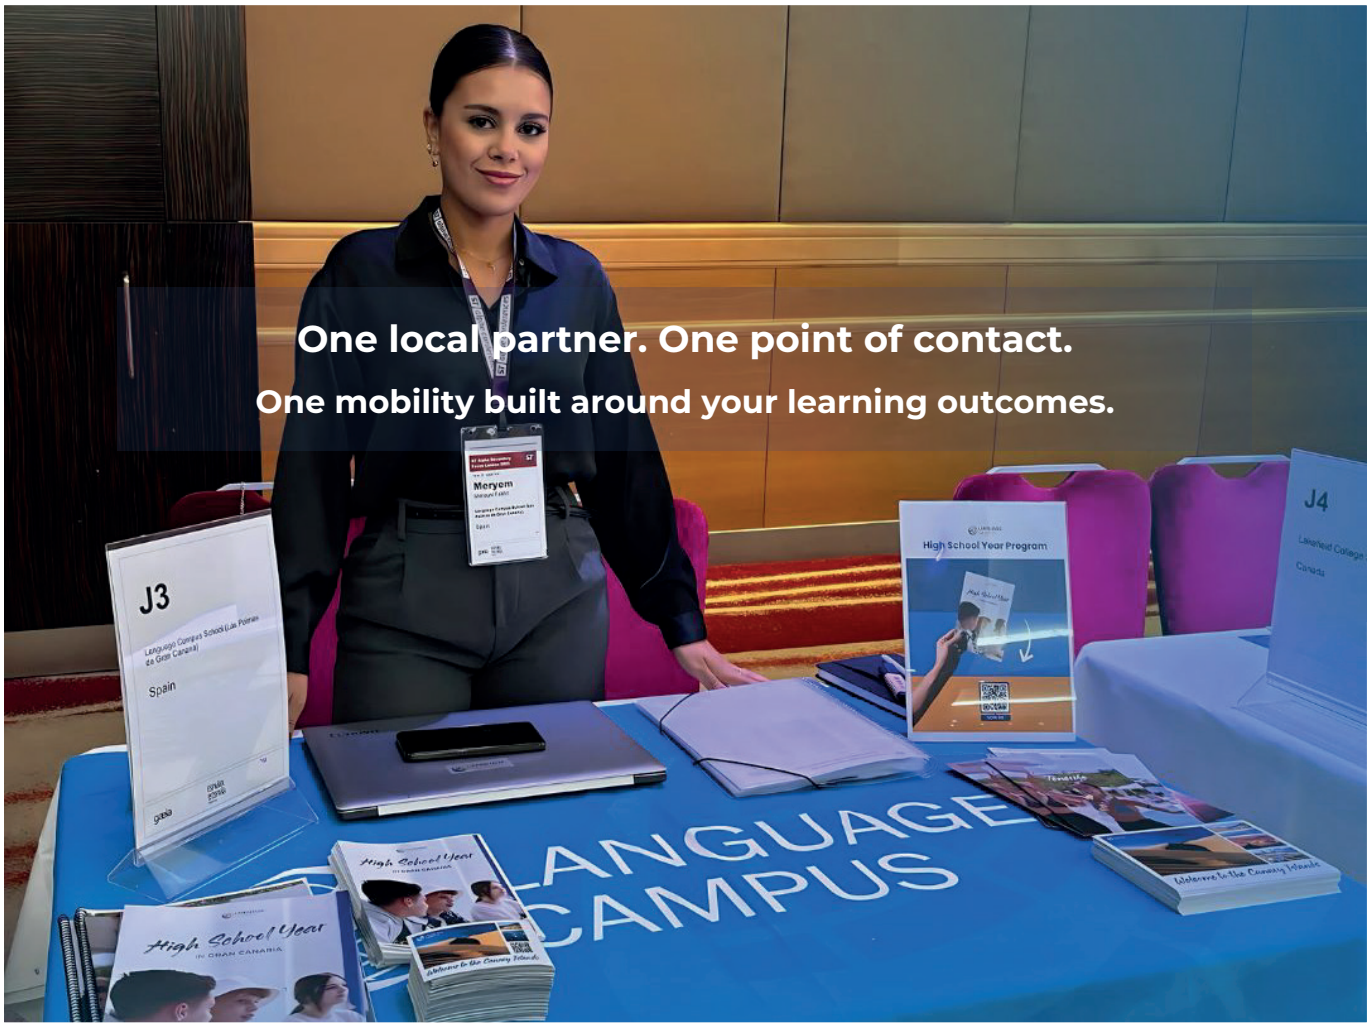

02
Design
Training, job shadowing, educational visits and professional exchange with local organisations.

03
Delivery
Accommodation, airport transfers, meals and cultural activities, according to the agreed package.

04
Support
On-site coordination, participant assistance, monitoring and certification.

Whether you already have an **approved project** and need a reliable host partner, or you are still shaping a new mobility, we adapt the programme to participants' profiles, objectives and duration.

From academic design and host coordination to logistics, monitoring and documentation, our team coordinates the mobility locally from the first enquiry to final certification.

HOW IT WORKS

Each placement is tailored to the participant's professional profile and learning objectives. Depending on the agreed package, coordination includes **host matching** , programme planning, local support and certification.

Placements are subject to participant profile and host availability.

Three Erasmus+ VET formats, one destination

One destination, three Erasmus+ mobility formats. **Group Mobility** is designed around collective learning with a Canary Islands VET partner. **Short-Term VET Work Placements** and **ErasmusPro** are work-based formats in which each learner follows an individual learning programme with a host organisation. Learners may travel as a group while completing individual placements.

Group Mobility 2–30 days	**Professional Immersion.** Collective learning with a Canary Islands VET partner, combining peer learning, technical workshops, sector-specific language, professional visits and applied projects.
Short-Term VET Work Placements 10–89 days	**Work-based learning in local companies and organisations.** Each learner follows an individual learning programme linked to their vocational profile, with host matching, workplace mentoring and local mobility support. 30-day placements are one of our established formats.
ErasmusPro 90–365 days	**Long-Term Work Placements.** Extended work-based learning with an individual programme, workplace tutor and long-term local coordination and support.

Travelling as a group does not necessarily mean Group Mobility: learners completing individual company placements follow the **Short-Term VET Work Placement** format.

SAMPLE PROJECT THEMES

01 Sustainability & Island Environments

Biodiversity, ocean awareness, responsible tourism and sustainable living through the Canary Islands as a learning environment.

02 Digital Citizenship & Media Literacy

Digital communication, critical thinking, responsible technology use and media literacy through collaborative activities.

03 Wellbeing & Active Learning

Healthy lifestyles, teamwork, outdoor learning and wellbeing through practical and experiential activities.

04 European Citizenship & Intercultural Communication

Identity, diversity, European cooperation and communication across cultures.

05 Entrepreneurship & Future Skills

Creativity, teamwork, problem solving, employability and entrepreneurial thinking connected to real professional contexts.

ERASMUS+ SCHOOL GROUP MOBILITY

Erasmus+ group mobility for school pupils requires a jointly designed learning programme with a partner host school, including peer learning between pupils from both countries. Programmes are subject to host-school availability and project eligibility.

Tailor-made language, culture and educational trips can also be arranged separately.

Higher Education & Adult Education

Two audiences, two programme structures — with the same local coordination and documentation.

HIGHER EDUCATION

For institutions

Staff training weeks, teaching assignments and study visits combining sessions with visits to local organisations.

Professional exchange: meetings with local professionals and institutions in the participants' field of work.

ADULT EDUCATION

For adult learners

Language and competence programmes for adult education providers, with flexible duration and intensity.

Certification: attendance and learning documentation for your Erasmus+ reporting, with support for Europass Mobility documentation where applicable.

TAILOR-MADE

Tailor-Made Programmes

Tell us your objectives and we design the programme around them, including study visits for institutional delegations.

01
Audit
We analyse development needs, project objectives and participant profiles.

02
Design
We select host organisations and define content, duration and balance.

03
Delivery
We coordinate logistics, participant support and on-site assistance.

04
Support
Monitoring, certification and documentation for your reporting.

Funding already approved?
Send us your objectives, preferred dates and participant profiles.

Still preparing your application?
Talk to us early and we help align activities with your project priorities.

Educational visits

Every educational visit is selected because it supports a learning objective. Where relevant, participants complete a guided observation, reflection or project task linked to their mobility programme.

Examples are confirmed in the individual mobility proposal according to learning objectives, sector, participant profile and local availability.
